IRISPOWERSCAN™

- Cloud-Ready Technologies

- 100% Intellectual Property for independent and flexible partnerships

- Flexible pricing models: Licensing, subscription, transactional

- You will find a version adapted to your needs and budget

Already more than 5000 customers from all continents trust IRIS Intelligent Document Recognition (IDR) software.

## CAPTURE ANY DOCUMENT RIGHT INTO YOUR BUSINESS APPLICATION

Your company receives documents in multiple formats from a variety of channels. Most of them holds crucial business information which needs to be integrated into your company's systems in order to ensure business continuity and kick-start further document processes and workflows.

With IRISPowerscan™ 10 you can rely on a document capture solution that goes the extra mile to not only extract the business-critical information you need, but also route documents and the data captured to your business applications.

✓ **Multi-channel capture & High-speed scanning** - Business critical information enter the business through a variety of channels such as mail, files, email attachments... IRISPowerscan™ 10 offers a single solution to address all of them. It supports most popular scanners (Canon®, Kodak®, Fujitsu®, Hewlett Packard®, Panasonic® and Inotec® etc.) and interfaces (ISIS, Twain, VRS); documents can be captured via an MFD and imported automatically using IRISPowerscan™'s watched folder feature; it can also import documents from Cloud services such as Box, Dropbox, Evernote, OneDrive, Google Drive or SharePoint.

Powerful image enhancement features help improve the quality of images by adjusting contrast and brightness, straightening skewed scans, removing unwanted pixels, splitting or merging images...

✓ **Advanced sorting** - IRISPowerscan™ 10 uses a variety of techniques to perform automatic sorting of your incoming documents, such as barcodes, patch codes, OCR/ICR zones, keywords, color detection, regular expressions...

Step 1: Scan/Import	Step 2: Sorting	Step 3: Indexing	Step 4: Qual. Control & Verifcation	Step 5: Document Creation & Compression	Step 6: Export
Scanner MFP Files (pdf, jpg, tif...) Watched Folders Cloud	Contracts Mail Archives Aplications etc.	**Indexes** Company Contract Nr. Signer Amount **Indexes** Name Date		PDF / XML TXT / DOC Compressed PDF Files	Your accounting system & ECM Field:Company Field Contract # Field: Signer Field: Amount Your HR system & ECM Field:Name Field:Date
Scanning/ File Import & Pre-Processing	Documents are separated by type	Data extraction	Data extracted is verified	PDF, XPS, XML, TXT, DOCX, etc.	Both documents and indexes

IRISPowerscan™ 10 also features a powerful layout recognition technology known as IRISFingerprint™. It learns the appearance of your various document types and performs identification without using text, labels, barcodes or any other conventional method.

✓ **High-accuracy indexing** - Now that documents have been identified, IRISPowerscan™ 10 extracts the key information you need. A variety of recognition technologies are used to capture all types of indexes: OCR, ICR, barcodes, patch codes, and more. Invoice reading including line-item extraction is available through dedicated add-ons.

✓ **One-click verification** - IRISPowerscan™ 10 uses powerful verification technologies to make sure the information captured on your input documents is 100% reliable before it is exported to your business application. The user interface includes easy-to-use tools and techniques to carry out the verification job quickly and efficiently: drag&drop OCR, keyboard shortcuts, auto-zooming…

✓ **Award-winning OCR and PDF Compression** - The latest IRIS-made OCR engine version is able to recognize text from 130+ languages. Once the full page has been recognized, the input document can be converted to a variety of formats including PDF, PDF/A, hyper-compressed PDF or PDF/A, XPS, RTF, XML, CSV, TIFF single or multi-page, BMP, JPEG, PNG, PDF image…

✓ **Export: a single, customizable connection platform** - IRISPowerscan™ 10 routes documents and critical information to system folders, email, printers, IRIS Central-Management feature and any third-party application via the IRISConnect ™ Toolbox add-on. IRISConnect™ dedicated connectors are also available for Share-Point, Therefore, FTP, ODBC, CMIS and cloud services like Box, Dropbox, Evernote, Google Drive and OneDrive.

FLEXIBLE ARCHITECTURE & INTUITIVE INTERFACE

To address your business needs and fit with your budget, IRIS-Powerscan™ 10 comes in various versions. Whatever your configuration, IRISPowerscan™ 10 always ensures a user-friendly approach:

- Minimal training time
- Intuitive interface
- Accessible file menu to create/open/save projects, modify general settings, interface language…
- Easy navigation mode to scan, visuaize, modify and process documents efficiently

- Email notifications
- Detailed designer view for advanced configurations and full project customization
- Easily share projects, capture, validation and export across multiple workstation

YOUR BENEFITS

Save valuable time

Reduce manual processing errors

Straightforward configuration

Easy export to your business application

What you see is what you export

Retrieve and share documents faster and more safely

IRISPowerscan enables us to have digital flows, which saves time and facilitates information sharing across our organization.
